# ESG GOVERNANCE

## Governance

### Supervisory Board

#### Objectives for the composition of the Supervisory Board and competence profile

Taking account of the results of its efficiency examination and the recommendation and suggestions of the German Corporate Governance Code (GCGC) – as far as applicable – the Supervisory Board resolves the following objectives for its composition.

# 01

In view of the further internationalization and the increasing importance of the Group's strategic future markets (particularly Australia, Asia, USA), a candidate (m/f) with relevant experience in the future markets and in regulated markets should be nominated.

# 02

To supplement the experience in the overall responsibilities of managing a listed corporation and superordinate stakeholder management, a candidate (m/f) with executive board experience in a listed corporation should be nominated.

# 03

In view of the challenges faced as a result of increasing digitalization and the related customer requirements and to strengthen the industrial orientation of the digitalization competency, a candidate (m/f) with relevant experience in the area of digitalization / IT / Industry 4.0 should be nominated.

# 04

In the context of the pending nominations, the aim should be to achieve rolling staggered periods of office which promote an ongoing exchange as well as a transfer of experience in the overall committee.

# 05

For future candidate proposals, the requirements of Section 96 (2) AktG on the gender quotas as well as Section C.1 sentence 2 and C.6 ff of the GCGC on diversity and independence should be observed.

## Competency Profile

### CDP

The CDP is an independent, non-profit organization which states it maintains the world's biggest database on the environmental impact of major corporations. The organization aims to establish the management of greenhouse gas emissions as a key economic success and risk factor in companies. Each year, on behalf of more than 500 institutional investors, the CDP collects information on corporate strategies to combat climate change and company-specific greenhouse emissions. In the Climate Change Questionnaire, alongside questions on the organization, targets, projects and programs, companies are surveyed in respect to information about risks and opportunities of climate changes and measures in the area of climate protection. In the year under review, Rheinmetall took part in this demanding CDP sustainability ranking for the second time. As in the previous year, our climate protection activities up to now were assessed with the grade "B" on a scale from "A" to "F."

The provisions of the collective agreements as well as the remuneration principles are independent of gender. The remuneration systems are company-specific, which is why a ratio analysis can only be made for individual selected companies or employee groups and not for the Group as a whole. The total remuneration can also be made up of other additional components in addition to the monthly salary, which is why it is not comparable as a total value.</p> <p>The employees of our foreign subsidiaries benefit from attractive remuneration systems that correspond to the respective local market conditions. Group-wide, collective regulations apply to about 62% of our employees.</p> <p>Variable salary components, which we pay as part of our performance-based remuneration, are paid on the basis of agreed and achieved targets. ### UNGC | UN Global Compact

The UN Global Compact is the world's biggest sustainability initiative. It was launched by the United Nations in 2000 and currently comprises around 13,000 participating companies from more than 150 countries. All of the signatories are committed to running their businesses in accordance with ten universally acknowledged principles relating to human rights, labour standards, environmental protection and combatting corruption. Furthermore, the signatories are obliged to report annually on their progress regarding implementation. Based on the ten principles and the seventeen SDGs, the United Nations – acting in cooperation with signatories of the UNGC – is working to achieve an inclusive and sustainable global economy that benefits all peoples, communities and markets.

On 13 April 2021, Rheinmetall joined the global network United Nations Global Compact. As a signatory, Rheinmetall has committed itself to promoting the ten principles of the UNGC on sustainable and responsible economic management and development.

#### HUMAN RIGHTS

**01** Businesses should support and respect the protection of internationally proclaimed human rights.

**02** Make sure that they are not complicit in human right abuses.

#### LABOUR

**03** Business should uphold the freedom of association and the effective recognition of the right to collective bargaining.

**04** The elimination of all forms of forced and compulsory labour.

**05** The effective abolition of child labour.

**06**

The elimination of discrimination in respect of employment and occupation.

**ENVIRONMENT****07**

Business should support a precautionary approach to environmental challenges.

**08**

Undertake initiatives to promote greater environmental responsibility.

**09**

Encourage the development and diffusion of environmentally friendly technologies.

**ANTI-CORRUPTION****10**

Business should work against corruption in all its forms, including extortion and bribery.
